8

Back up your Secret Recovery Phrase to keep your wallet secure

Secret Recovery Phrases are the only way to restore your wallet. If you lose your device or delete the app, you will need this phrase to recover your wallet. Keep it safe and never share it with anyone.

! Important

If you lose your Secret Recovery Phrase, no one, including us, can help you recover your wallet.

How to back it up

1. Tap "Create Recovery Phrase" to view your phrase.
2. Write it down on paper and keep it safe.
3. Avoid storing it on your phone, screenshots, or the internet.

Tap

Create Recovery Phrase

[Advanced Options](#)

9

Back up your Secret Recovery Phrase

Write down your Secret Recovery Phrase in order and keep it in a safe place. Do not take screenshots or share it with anyone.

Protocol PoS Mining

Basic Rules

1. Earn income by staking CA.
2. You can withdraw the principal at any time. However, if withdrawn within 24 hours, it will be locked and cannot be received.
3. Stake at least 1 CA to earn the yield.

Period	Yield (Daily APR)
Flexible	1M
30 Days	1.3M
90 Days	1.6M
180 Days	2M
360 Days	2.5M

$M = \text{Daily Yield (Flexible Staking} \times 1.3 \times 30 \text{ Days Staking Yield} \times 1.6 \times 90 \text{ Days Staking Yield} \times 2 \times 180 \text{ Days Staking Yield} \times 2.5 \times 360 \text{ Days Staking Yield)}$

4. The yield is calculated based on the principal the day before and is used for the next day's staking yield.

Staking Overview

My Staked Amount

1.276 CA
≈ \$38.5562

Protocol PoS Staking Yield Pool Overview

Protocol PoS Staking Yield Pool	Total Network Staking Amount
847914	524899

1. The Protocol PoS Staking Yield Pool is funded by 200,000 CA directly issued by the protocol.
2. CA is allocated to the Protocol PoS Staking Yield Pool at a rate of 0.18% of the daily Protocol PoS Staking Yield.
3. A portion of the fees earned from transaction settlement is allocated to the Protocol PoS Staking Yield Pool.

CaryPact 0x9970...3f66

A minimum of 5 CA is required.

3. M is calculated as follows

Period	Yield (Daily APR)
Flexible	1M
30 Days	1.3M
90 Days	1.6M
180 Days	2M
360 Days	2.5M

$M = \text{Daily Yield (Flexible Staking} \times 1.3 \times 30 \text{ Days Staking Yield} \times 1.6 \times 90 \text{ Days Staking Yield} \times 2 \times 180 \text{ Days Staking Yield} \times 2.5 \times 360 \text{ Days Staking Yield)}$

4. The yield is calculated based on the principal the day before and is used for the next day's staking yield.
